

Gonzalo Alvarez Campos

Senior Software Engineer

SUMMARY

Experienced Full-Stack Software Engineer with 6+ years in enterprise-level environments, specializing in frontend development with React, TypeScript, Nextjs, and Remix. Proven track record delivering scalable web applications for fintech and academic platforms. Passionate about performance, maintainability, and clean UI/UX. Strong collaborator with mentoring experience and backend exposure (Django, Node.js).

WORK EXPERIENCE

Qubika

Senior Software Engineer

April 2022 – Present

- Led frontend development for a loan management platform (Avant, US), using **React**, **Remix.run**, and **PostCSS**.
- Maintained and modernized a legacy dashboard with **React class components**, **GraphQL**, and **TypeScript**.
- Introduced automated testing with **Cypress** and **Playwright**, improving regression test coverage.
- Contributed to backend using **Python** and **Django**.
- Worked on AI chatbot using **NextJs** for financial solution and data management.

Technologies: React, Remix.run, NextJs, TypeScript, GraphQL, Cypress, Playwright, Python, Django, Storybook

Endava

Senior Software Engineer

Aug 2021 – April 2022

- Served as technical consultant for Yale University, building semantic data solutions using **MarkLogic** and **JSON-LD**.
- Mentored interns through Endava Argentina's Internship Program, delivering lectures on **JavaScript** and programming fundamentals.
- Supported project planning and client interactions as a tech consultant.

Technologies: JavaScript, TypeScript, JSON-LD, Mentoring

Santo Tomas de Aquino University

University Professor (part-time)

Jul 2021 – Mar 2022

- Taught introductory programming and data structures to first-year students, using **C** and **JavaScript**.
- Mentored students on best practices in problem-solving, clean code, and software development fundamentals.

Technologies: JavaScript, C, Mentoring, Teaching

Cliengo

Software Engineer

Dec 2020 – Aug 2021

- Built and maintained a customer relationship management (CRM) system and conversation handler using **React**, **Redux**, and **Axios**.
- Implemented unit testing strategies with **Jest.js** to ensure code reliability and maintainability.
- Deployed applications to **AWS** and **Heroku** environments.
- Contributed to backend **API** features using **Node.js**.

Technologies: JavaScript, React, Node.js, Redux, Axios, Jest, AWS, Heroku.

Globant

Junior Software Engineer

Aug 2018 – Dec 2020

- Developed and maintained features for CRM and analytics applications using **React**, **Vue.js**, and **Highcharts**.
- Wrote unit tests and collaborated with cross-functional teams to ensure consistent code quality.
- Gained hands-on experience with **.NET Core** and **Node.js** on backend tasks.
- Contributed to UI components using Storybook for scalable design systems.

Technologies: JavaScript, React, Vue, Storybook, Highcharts, .NET Core, Node.js.

EDUCATION

Santo Tomás de Aquino University

Aug 2021

- Software Development and Quality Control Technician (Associate Degree).
